

# VideoProtects®

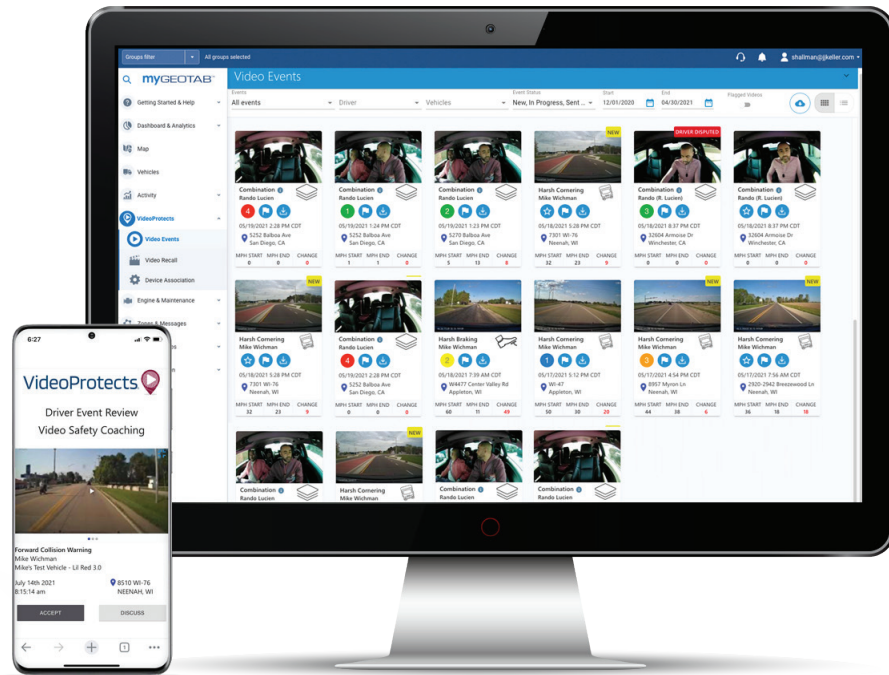

## The Science of Video-Telematics

VideoProtects® Video Event Monitoring Service is video-science that enhances your safety program when added to Geotab telematics.

The VideoProtects solution offers insight into risky driving events through continuous recording from driver and road-facing cameras combined with artificial intelligence – as part of your MyGeotab experience.

This, combined with VideoProtects remote driver coaching workflow, brings the power of event review and scoring right to the fleet desktop.

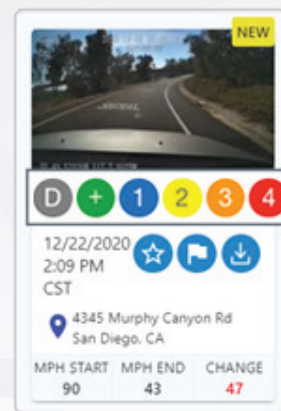

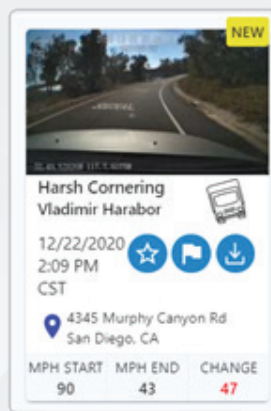

Our event monitoring solution promotes reliable driver behavior and alerts managers when regulation and policy violations occur.

## Fleet Back Office Desktop Video Review & Scoring

Video event review and scoring is key to an effective video safety program.

VideoProtects technology values your time by simplifying your video in-box, reducing false positives with our proprietary algorithm. It presents you with choices and recommendations, empowering you to focus, view, score, and take corrective action on events that YOU decide carry the greatest risk to your fleet.

## VideoProtects Court Reporter

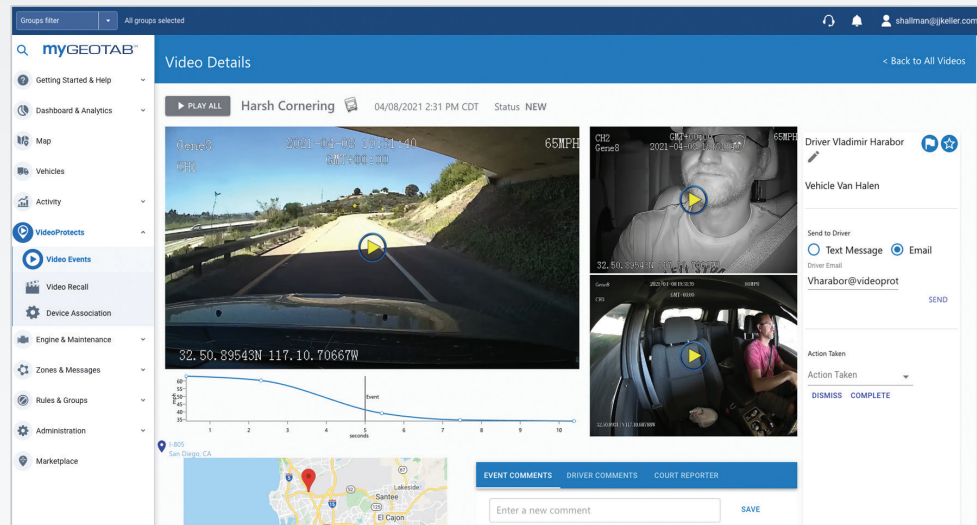

The VideoProtects Court Reporter™ provides a complete audit trail of every action taken with a video record including who has reviewed, downloaded, and every other action taken down to the keystroke and mouse click.

EVENT COMMENTS			DRIVER COMMENTS			HISTORY		
Datetime ↓	Created By	Description						
10/15/2020 10:24 AM CDT	Gene Emory	Text sent to 9208410556						
10/07/2020 2:14 PM CDT	Gene Emory	Video event reopened.						
10/07/2020 2:14 PM CDT	Gene Emory	Video event status set to In Process.						
10/07/2020	Gene	Action taken status						

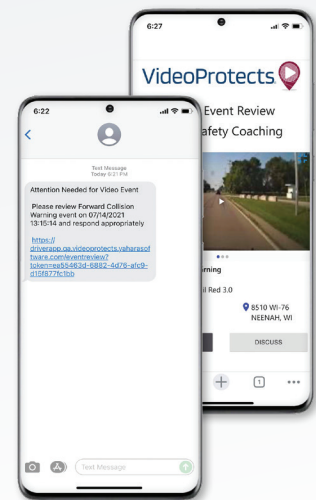

## Remote Driver Coaching Workflow

Shortening your timeline from event review to driver coaching results in a swift reduction of risky driving events. The VideoProtects back office video review workflow allows fleet safety managers to push scored video events to a driver through a smart phone web application for near real-time driver review and coaching.
