

RUSH REFUSE SYSTEMS RENTAL PROGRAM

expect more.

> A NATIONWIDE RENTAL FLEET

1

When your situation calls for rental trucks, Rush Refuse Systems has you covered. We've built a nationwide rental fleet of both solid and liquid waste equipment ready for immediate delivery to your site. Our rental fleet includes front end loaders, rear end loaders, automated side loaders, roll-off trucks, vacuum and grapple trucks. We feature top-quality Peterbilt trucks and the industry's leading body and tank suppliers – McNeilus, Heil, G&H Manufacturing, Galbreath, Amrep, New Way, Petersen Industries and Pik Rite.

We've placed rental equipment at geographically strategic locations in Florida, Texas and Arizona to enable fast delivery to your site while saving you freight costs. And by leveraging our network of more than 155 Rush Truck Centers across the country, we can provide unparalleled parts and service support.

The Rental Program from Rush Refuse Systems is a cost-efficient way to update your aging refuse fleet with high-quality equipment. The program not only helps you with budget planning and maintenance cost control, it also helps reduce downtime and eliminates vehicle disposal concerns. We offer a variety of terms, including full-service rentals, short-term rentals and rent-to-purchase plans. And we are specialists in programs and service agreements for municipalities.
